

## **Workshop ‘Do’s & don’ts of (poster) presenting your PhD research to a broad audience’**

Giving (poster) presentations is an important part of sharing your work. Powerful presentations appeal to a broad audience — those who work in your research area but also those who don’t. What should you tell the OOA retreat audience? And how do you make sure that the listener doesn’t lose attention after a few sentences? Our OOA workshop provides you with tips and tricks to give an appealing presentation.

All OOA retreat 2017 participants of the AMC, NKI-AvL and VUmc CCA are invited to join the workshop.

---
